EXECUTIVE SUMMARY

Motivated and detail-oriented B.E. Computer Science Engineering student with a strong foundation in programming, problem-solving, and software development. Skilled in web development (HTML, CSS, JavaScript, React, Next.js) and AI/ML technologies (TensorFlow, DeepFace, Python). Seeking roles that require proficiency in both frontend development and intelligent systems, aligned with internship experience at CKM Buildbase and OneYes InfoTech Solutions.

TECHNICAL SKILLS

Programming Languages:	C, Java, Python
Web Technologies:	HTML, CSS, JavaScript, React, Next.js, TypeScript, Tailwind CSS
AI / ML Technologies:	TensorFlow, DeepFace, Face Recognition Technology, Scikit-learn
Tools & Platforms:	VS Code, MySQL, Git
Core Concepts:	Data Structures, Object-Oriented Programming (OOPs)

SOFT SKILLS

- Communication & Teamwork
- Problem Solving & Analytical Thinking
- Time Management & Multitasking
- Adaptability & Quick Learning
- Leadership & Presentation Skills
- Multilingual: English (Fluent), Tamil (Fluent), Hindi (Basic), Urdu (Native), Arabic (Read/Write)

PROFESSIONAL EXPERIENCE

OneYes InfoTech Solutions

Role: AI / ML Developer Intern

May 2026 – Ongoing

Responsibilities

- Developed an AI-based Face Recognition Attendance System using DeepFace and TensorFlow.
- Implemented facial recognition concepts for automated attendance tracking.
- Assisted in integrating AI models into real-world applications and deployment pipelines.
- Collaborated with the team to design, test, and iterate on intelligent automation workflows.
- Researched and applied ML techniques to improve model accuracy and performance.

Impact

- Built a smart attendance system capable of recognising faces automatically with high accuracy.
- Improved understanding of AI/ML workflows and real-time system implementation.
- Gained hands-on experience in developing intelligent automation solutions from scratch.

CKM Buildbase Private Limited

Role: *Web Developer Intern*

26 Dec 2025 – 6 Jan 2026

Responsibilities

- Developed and designed a fully responsive business website from scratch using HTML, CSS, and JavaScript.
- Worked on frontend UI design, webpage layout structuring, and cross-browser compatibility.
- Improved website responsiveness and user experience across devices and screen sizes.
- Collaborated with team members to debug issues, test features, and support website deployment.
- Applied modern web development best practices to deliver a clean, professional website.

Impact

- Successfully built and delivered a fully functional business website on schedule.
- Enhanced practical knowledge in frontend development and responsive design principles.
- Strengthened problem-solving and real-world project development skills.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science Engineering
Sathyabama Institute of Science and Technology, Chennai

2024 – 2028

Higher Secondary Certificate (Class XII)
Measi Matriculation Higher Secondary School, Chennai

Year of Passing: 2024

Secondary School Leaving Certificate (Class X)
Measi Matriculation Higher Secondary School, Chennai

Year of Passing: 2022

AWARDS & ACCOMPLISHMENTS

- Microsoft Certified: Azure and Networking
- Microsoft Certified: Cloud Computing
- C for Beginners – Certification
- NPTEL Certification in Python for Data Science
- NPTEL Certification in Programming in Java
- Research Publication: SmartSecurity – Leveraging AI for Predictive Cyber Threat Detection (Threat analysis, anomaly detection & proactive security mechanisms)
